Now that we're thrown together under the same roof, Will I finally have a chance to make things right? Fiona I never would have opened the door if I knew he was waiting on the other side. Cade Sawyer. Hot as ever. All muscles and raw power. Our history runs deep. Childhood friends. My first kiss... and heartbreak. It crushed me when he disappeared ten years ago. Now he's back... and my new roommate. Great. Turns out, Cade has a lot of secrets. First, he's a billionaire. Oh, and basically a recluse. Then, he saves me from a mad man. He's not the teenage boy I knew... He's an alpha protector. It feels so good when he keeps me safe in his big, tattooed arms... A second chance may seem impossible for the two of us... Can we keep playing house? Or will our past keep me running?
