2018 GRAMMY Award for Best Spoken Word Album The Princess Diarist is Carrie Fisher's intimate, hilarious and revealing recollection of what happened behind the scenes on one of the most famous film sets of all time, the first Star Wars movie. PEOPLE magazine Best Book of Fall 2016 New York Times Best-seller Star Wars VIII: The Last Jedi, featuring Carrie Fisher, is scheduled for release on December 15, 2017. Bright Lights: Starring Carrie Fisher and Debbie Reynolds debuted on HBO in January 2017. When Carrie Fisher recently discovered the journals she kept during the filming of the first Star Wars movie, she was astonished to see what they had preserved - plaintive love poems, unbridled musings with youthful naiveté, and a vulnerability that she barely recognized. Today, her fame as an author, actress, and pop-culture icon is indisputable, but in 1977, Carrie Fisher was just a teenager with an all-consuming crush on her costar, Harrison Ford. With these excerpts from her handwritten notebooks, The Princess Diarist is Fisher's intimate and revealing recollection of what happened on one of the most famous film sets of all time - and what developed behind the scenes. Fisher also ponders the joys and insanity of celebrity, and the absurdity of a life spawned by Hollywood royalty, only to be surpassed by her own outer-space royalty. Laugh-out-loud hilarious and endlessly quotable, The Princess Diarist brims with the candor and introspection of a diary while offering shrewd insight into the type of stardom that few will ever experience.
