Life's no fairy tale, especially for an omega. When William's father names him heir to the throne, it kicks off an event the alpha has both longed for and dreaded; the courtship contest. In a matter of weeks, he has to choose the two people he'll spend the rest of his life with. He has Elliott; his best friend and secret love. But his family cares more about making 'the right kind' of match and less about little things like love and happiness. Will doesn't want to end up in an unhappy marriage like his father, and he doesn't share his family's loathing of omegas. Elliott loves Will with all his heart, and the long wait for them to be together is almost over. But first, he has to help William with the difficult task of choosing a third person to share their life with. When he meets Cinder, he knows there's something special about the shy omega. Choosing an omega won't be easy given the kingdom's past, but he's determined they'll make it work. Until he realizes there's more working against them than simple jealousy and family politics. Like every omega in their island kingdom, Cinder dreams of being invited to the palace and the prince falling in love with him. Too bad that only happens in fairy tales. When his stepfather sabotages any chance he has of being selected, Cinder thinks it's time to let go of his dreams. But when a twist of fate sees him wind up in the palace anyway, he has the chance he's always wanted. He finds himself dealing with jealous betas, his bully of a stepbrother, and a royal family who want to pretend omegas don't exist. Even that won't deter him when he finally sets his eyes on Prince William and his close friend, Elliott. But someone in the palace is determined to put a stop to things and when Cinder finds himself imprisoned, their fairy tale romance hangs in the balance. Betrothed is a ~ 97,000-word novel featuring a polyamorous romance, a modern-day fairy tale, intrigue, angst, mpreg, knotting, and of course, happy endings. There are scenes not suitable for readers under the age of eighteen.
