CONTINUE ►

Are you living life at your maximum potential? Is your sex drive at its peak, or has it diminished? Is your enthusiasm for life lessening? Healthy testosterone levels are not only a physical state of prime health, but a mental state of positive wellness and aggression. A man with low testosterone will experience not only a physical decline, but also a diminished quality of life. Testosterone is often misrepresented by the media at large as inciting "hostility", or its effects are reduced down to building muscle only, and it's portrayed as being detrimental to health. Nothing could be further from the truth.
