Nothing can ruin a day afield (and sometimes an entire trip) faster than a dog injury. This is the first field guide covering the injuries a dog can encounter in the field, presenting the symptoms and treatment. Sized to fit in a pocket (4 x 6) and spiral bound for easy use. Each section is tabbed for quick access to a particular ailment and covers such things as snake bites, gunshot wounds, poisoning, choking, cuts, bleeding, lacerations, pests, eye problems, vomiting, ear problems, shock, heat prostration, broken bones, conditioning, and first aid supplies.
