Who was this skipper, this mother, this writer? These questions motivated Cathy Converse to re-trace the route of famous pacific seafarer M. Wylie Capi Blanchet, and write a biography in the process. Widowed in 1926, Blanchet cruised the coast with her five children and their dog in a 25-foot boat that had been rescued from the seafloor. The Curve of Time, Blanchet's resulting book, remains a bestseller and a classic in the annals of nautical literature, but little is known about the rest of her life. Converse offers insiders' recollections of this enigmatic woman, along with updated information about the villages, inlets and islands described in Curve, making Following the Curve of Time essential reading for anyone who has ever been captivated by the West Coast or Capi herself.
