I never wanted a wife. Until I met her. All my life I've been a lone-wolf. My favorite things are fast cars and a glass of brandy after a long day. Things were perfect. Until my father reminded me he controls my inheritance. If I don't bring a wife to the next family vacation, he's cutting me off. I hate having my hand forced... But I've got a plan. I asked my assistant to find me the most non-wife-material girl he can dig up. Once I parade her in front of my father, he'll be begging me to divorce her. I'll keep my inheritance without having to change my life for anyone. It seemed so easy. Then I met her. She's everything I never knew I wanted. And when she finds out I picked her because I thought she'd never fit into my world... It'll break her heart. This novel contains a hot alpha billionaire who NEEDS a wife. He won't rest until she's locked down with his ring on her finger. NO cheating, lots of kindle-melting action, and always a happily ever after!
