Best friends Tookie and Melonia have reached an age of maturity and it's time to start making real decisions about life and love. Although they seem to be on different paths, the one thing they have in common is the knack for searching for love in all the wrong places. Melonia has been with the same guy for the past two years, and although they've been through trials, she always felt that he truly loved her. But when a crazy stalker comes out of nowhere, it leads to confusion and a ton of unanswered questions. As her life gets turned upside down she is awakened to the fact that the man she's really been wanting had been right there for the taking all along. Tookie has been the "it" girl since fifteen years old when she linked up with a well-known hustler named Face from the other side of town. Knowing what comes with the life, she accepted a lot of Face's ways, but when she is hit with the ultimate disrespect back to back, it becomes too much to bear. Join these girls on a wild ride through the streets of Detroit as they make a few stops at Drama Street, Murder Ave, and Infidelity Road. Will Melonia have the guts to go after what she wants no matter what she has to give up in order to get it? Will Tookie find the strength to leave or will she stay and suffocate at the mercy of side chicks?
