Running the gamut in topic and style from faux-political to faux-New Yorker, David Berman's lo-fi cartoons incorporate strains of high and low comedy, wistful Americana, contemporary art, dream visions, and a visual analog to the semipenetrable personal allusions found in his music and poetry. His drawings invite the same deeper thought as his writings, making use of wordplay, cultural references, and offbeat observations. The sparse illustrations are complemented by poignant one-liners, and reveal moments of lightness within the author's dark humor, providing a wry, erudite commentary on American culture. **DISCLAIMER:** "We cannot guarantee the availability of this ebook on an external site."
