CONTINUE ►

Have you always wanted to learn how to speak Italian but simply didn't have the time? Well if so, then, look no further. This is one of the most advanced and revolutionary methods that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the 27 most common languages in the world and distilling from them the 350 words that are most likely to be used in real conversations. These 350 words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work - discoveries that are detailed further in this book - Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant - now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Italian, this book is not for you. However, if you need to actually hold a conversation while on a trip to Italy, to impress that

certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This method is designed for fluency in a foreign language, while communicating in the present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. More formalized training in conjugation, tense, grammar rules, and the like can all come later. This book is recommended for those with prior knowledge in Italian grammar and pronunciation.
