Baron Luzader, former Navy SEAL, never liked to talk ... until he was forced to do it as part of his post-service therapy. Now, he finds his free tongue gets him in trouble more often than not, especially when he's assigned to work a surveillance mission with a brilliant, beautiful woman. Eight years in Special Ops didn't prepare him for Nessa. Nessa Dimmick finally has a chance to prove herself in her field of Information Management. The biggest perk of the new job turns out to be her hunky partner, a former Navy SEAL with a great smile and no filter on what he says. Baron is different than anyone she's ever worked with and his constant stream-of-consciousness compliments keep her blushing. She's new to this whole partner thing, however, and they both have to figure out that trust goes both ways. When their surveillance takes them across the Mexico border, Nessa wants to prove herself in the unfamiliar environment and gets in over her head. If she can't learn to trust Baron, her actions could put the two of them and their relationship in danger.
