But when she overhears his ex threatening to force him to sell the place, she can't help but rush in to save the place by claiming to be his fiancée. Jackson Bellamy's ex-wife leaves nothing but trouble in her wake. When she shows up at his family's 1800s bed and breakfast and demands that he take her back or her father will foreclose on his property, he's stuck between a rock and a hard place. But when his mysterious and pretty guest jumps to his rescue, his ex gives him the bad news that he has three months to sell the place or pay it off.
