Understandably, most of us are worried about placing our loved one in a care facility, especially if they are frail and vulnerable. We worry about abuse, neglect, cost, and other undesirable issues the media tends to churn out as front-page news. In this book, author Joseph Spada, LPN, offers you insider's guidance into long-term care, clearly explaining what your options are, and the pros and cons of each. He shows you how to find and select the best facility for your needs, and most importantly, what to watch-out for. Joseph introduces you to the growing trend of Adult Family Homes; often overlooked, their small size and highly personalized care make them an attractive choice for both aging seniors and their adult children, and a worthwhile alternative to larger institutional settings. But as with any important endeavor, you need expert guidance before venturing into unknown territory – this book is your road map. With more than 25 years' experience caring for seniors and operating long-term care homes, author Joseph Spada, LPN, is in a unique position to compare and contrast these choices in a straightforward

manner. You'll learn: •How to determine the safety risks in your current situation; •Aging-in-place: myths vs. reality; •20 must-ask questions of any long-term care facility - before signing! •Top 10 key items to look for when visiting any care facility •Aging-in-place: myths vs. reality; •Why "free" referral agents may not be in your best interest; •How to avoid costly mistakes (like moving again) and potentially dangerous situations; •7 signs of poor care, possible abuse, and how to handle it; •Top 10 items to look for when visiting any care facility •How to monitor care & address concerns, like a pro! •And so much more. The goal of this book is to help you understand and navigate the various long-term care options and find the home that is the best fit for you. After all, the most important consideration is to find a place where they can live happily, comfortably, and safely. Read this book to educate yourself; it's an essential guide to your role as caregiver.
