He ruined my life. Now he really wants to screw me. Justin Hayes was my best friend up until the day he broke my heart and disappeared. When I find out he's my new boss, I'm about to leave with my middle fingers held high. Instead, I stop dead in my tracks as soon as he steps into my office. Justin's all grown up, and he's even more gorgeous than I remembered. He was always handsome but now he's the kind of man I really want to... get to know. But it doesn't matter. I despise him. He says he wants to work together very, very closely, but I can't let him anywhere near me. I'm afraid I might slap him right before I kiss his soft, full lips. He says he remembers everything we went through, and he wants to make it right. I think he just wants to taste the one girl that got away. I don't know what to do. This is my dream job and "quitter" isn't in my vocabulary, but the sight of Justin makes me want to run my nails down his bare back, nice and rough. I hate my new boss. But I want him so badly it hurts. *Hating My New Boss* is a super steamy, over the top, hate to love office romance with adult themes and lots of laughs. It's only for readers 18+. *Hating My New Boss* is a full length standalone novel. No cliffhanger. Guaranteed HEA!
