We all know that perfect parenting does not exist, yet we still struggle with the social expectations that teach us that being imperfect is synonymous with being inadequate. These messages are powerful and we end up spending precious time and energy managing perception and the carefully edited versions of the families we show to the world. On *The Gifts of Imperfect Parenting*, Dr. Bren Brown invites us on a journey to transform the lives of parents and children alike. Drawing on her 12 years of research on vulnerability, courage, worthiness, and shame, she presents ten guideposts to creating what she describes as "wholehearted" families where each of us can continually learn and grow as we reach our full potential. "It's actually our ability to embrace imperfection that will help us teach our children to have the courage to be authentic, the compassion to love themselves and others, and the sense of connection that gives true purpose and meaning to life," states Dr. Brown. *The Gifts of Imperfect Parenting* is a practical and hopeful program for raising children who know that they are worthy of love, belonging, and joy.
