Dear Diary, I'm an easy lay. Okay, that's definitely not true. But it might as well be, because that's what everyone thinks of me. I'll admit I've earned that reputation with the biggest con job since Enron. The reality is . . . I'm a virgin. Long ago, I decided to save myself for The One. He's out there somewhere, that special man worthy of getting between my legs and someday I'll find him. But what do I do when my new boss decides he's the one deserving of that honor? Liam Blackstone is the sexiest man I've ever seen, powerful and charming, and willing to take me under his wing professionally. But his cocky assurance that I'll want to get underneath him as well has heat filling my body, my dreams filled of mergers and acquisitions that have nothing to do with business. But if I give in . . . will I become what people have always thought of me? Each book in The Virgin Diaries is a different couple with their own HEA and can be read on its own. Guaranteed HEA, no cheating, and no cliffhanger!
