From the internationally best-selling author of the His Dark Materials trilogy, a spellbinding journey into the secrets of his art - the narratives that have shaped his vision, his experience of writing, and the keys to mastering the art of storytelling. One of the most highly acclaimed and best-selling authors of our time now gives us a book that charts the history of his own enchantment with story - from his own books to those of Blake, Milton, Dickens, and the Brothers Grimm, among others - and delves into the role of story in education, religion, and science. At once personal and wide-ranging, *Daemon Voices* is both a revelation of the writing mind and the methods of a great contemporary master and a fascinating exploration of storytelling itself.
