BE A HUMAN CALCULATOR Can you find the cube root of a number like 46656 in less than 5 seconds? Can you find the square root of a number like 1296 in less than 5 seconds? Can you find the square of 75, 85, 95 in two seconds? Can you add/multiply /subtract/divide numbers at a faster pace? Can you check divisibility of any number by any other number? Can you find the percentage of a number at a rapid pace? Can you factorize an algebraic expression orally? Can you solve algebraic equations at a fast pace? and much more..... If no. Then, this book is for you..... The book will improve the calculation speed of all the students by at least two times by practicing and understanding some observation based tricks explained in the book. A useful book for School students across the globe (Grade VI to Grade XII) and a must-have for students appearing for competitive exams like GMAT, GRE, CSAT and examinations like SSC, UPSC, MBA, MCA, etc. in India. After going through the book, solving arithmetic problems of addition, subtraction, multiplication, division, square, square root, cube, cube root, etc. and algebraic problems on division, factorization, solving equations, etc. would be a fun for students. **ABOUT THE AUTHOR** Rajesh Sarswat has recently retired voluntarily from a senior capacity under the Government of India to pursue his passion for writing and teaching. Despite the pressing bureaucratic compulsions he had to negotiate with on a daily basis, he pursued his keen interest in the field of Mathematics and had done a lot of research on various techniques and concepts on quick Mathematics. This book is the result of his extensive research in this field for the last 20 years. He qualified in 13 All India Level Competitive Examinations, some of which have been reckoned as the toughest and the most gruesome, alongside his research and writing work. Apart from writing on mathematical subjects, Rajesh has a penchant for teaching mathematics and is a favorite teacher for his creative and entertaining ways of presenting the topic. His other books *Avoid Silly Mistakes in Mathematics* and *" How to Memorize formulas in Mathematics"* are very popular amongst students due to various innovative techniques methods explained in these books. This book is his third book. Rajesh lives in Ghaziabad, Uttar Pradesh, India with his wife and son.
