

[Free PDF File] Handbook for the Recently Deceased

CONTINUE ►

This book is a replica of the original Handbook for the Recently Deceased as seen in the 1988 film Beetlejuice. The cover and the first few pages of this book have been painstakingly recreated using a genuine prop which was used for filming as a reference. There were several identical Handbook props made for the film, all of which were created using a psychology textbook as a template. Since no actual content exists for the body of the rest of these pages, the remainder of this book has been cleared for you to use as a journal or sketchbook should you wish. This book consists of 200 lined pages on a cream background with title headers and numbers on each page. Perfect for any Tim Burton or 80's movie fan.
