A supernatural war fast approaching. A young queen who may not live to take the throne. Evie can't recall her past life, but her quest for answers revealed the truth behind local lore: wolves and dragon shifters do exist ... and she's a hybrid descendant of both. Keeping her identity as the returned queen hidden is no small feat. Especially when it's unclear who's friend or foe, who risked it all to bring her back, and why? It's with Liam's help that she learns to embrace and control her new abilities. Their shared past dates back centuries, an era when Liam was much more to her than just a warrior. She has no memory of their time together; however, traces of a powerful bond linger even now. But she's torn. Can the choices she makes in the present override supernatural ties and legends of old? Or is her future already written in stone? Including signs pointing toward her untimely death at the hands of Nick, the boy who stole her heart the moment she set foot in Seaton Falls? Evie refuses to be ruled by her past. Nick's determined to rewrite the future that marks him as her killer. And as for Liam, her warrior ... he looks forward to stopping him when he fails. \*\*\*Grab your copy of DARK SIDE OF THE MOON today!\*\*\* The Lost Royals Saga is an upper YA/NA crossover.
