John Deere has been the designer and manufacturer of innovative farm implements since 1837, starting with the steel plow. Fans of the green brand will find plenty to admire among Deere's fine keepers of the farm in the 2018 John Deere Calendar that includes the last four months of 2017. The spacious grid, printed on paper certified by the Forest Stewardship Council, provides room to write in your appointments, planting schedule and tune-up dates.
