The worst feeling as a brand new Rookie, is when someone on scene calls you a Rookie. When you get presented with that crazy scenario, and a million things are happening at once, you just, freeze. Educating yourself is the only real way to ensure your confidence on the street. Sadly there arent nearly enough resources available out there to help new Rookies succeed. This book is by no means meant to replace the years of experience on the streets, that can only be gained by doing the job day in and day out. However, this book can and will give you an on-hand resource and study guide to help you make confident decisions in critical, and everyday situations working in the field of Law Enforcement. This book is a comprehensive look at best practices for practically every call one could face in the Law Enforcement field. The book is meant to keep you focused on what the end outcome should look like, regardless of how hectic the scene may be.
