

[GET] The Independent Filmmaker's Law and Business Guide: Financing, Shooting, and Distributing Independent and Digital Films

CONTINUE ►

Preparing independent or guerrilla filmmakers for the legal, financial, and organizational questions that can doom a project if unanswered, this guide demystifies issues such as developing a concept, founding a film company, obtaining financing, securing locations, casting, shooting, granting screen credits, distributing, exhibiting, and marketing a film. Updated to include digital marketing and distribution strategies through YouTube or webisodes, it also anticipates the "problems" generated by a blockbuster hit: sound tracks, merchandizing, and licensing. Six appendices provide sample contracts, copyright forms and circulars, Writer's Guild of America definitions for writing credits, and studio contact information.
