

[Free PDF File] Find Your Passion: The Ultimate No-BS Workbook: 186 Questions, Prompts, and Exercises to Find Your Passion, Work on Purpose, and Leave a Lasting Legacy

CONTINUE ►

Do you feel that a life doing what you love is out of reach? Are you dying to find your passion but don't know where to start? Have you given a lot of things a try only to find none of them were really your calling? A recent poll discovered 85 percent of people hate what they do. Guess what? It doesn't have to be this way. Despite what most people think, finding your passion can be a simple process - once you know a thing or two about the human mind. Extraordinary achievement comes to those who have aligned their thoughts, feelings, and actions toward the accomplishment of a cause - that's what makes them so effective. This alignment is what gives people like Jeff Bezos, Elon Musk, and Oprah the energy necessary for changing the world on a daily basis. This powerful drive is what we have come to know as passion. What if I told you that you too could replicate this alignment within yourself? That you too could find your life's purpose and choose an adequate vehicle for bringing about its accomplishment? That you too could live every single day with passion and leave a legacy? Find Your Passion: The Ultimate No-BS Workbook will provide you with thought-provoking questions, open-ended prompts, and creative exercises carefully designed to help you: Discover your life's purpose Find out who you really are Eliminate limiting beliefs Create a powerful system of values Narrow down your talents and skills Evaluate your entrepreneurial side Choose the right vehicle to fulfill your life's purpose Most people out there waste away their entire life without ever taking the time to go through a process like what you're about to experience in this audiobook. The result? An empty, hollow life made up of a repetitive daily grind. But you're different. You've made the decision to find what you were born to do, and this workbook was made to help you along this process.
