Adopting or fostering a child with reactive attachment disorder (RAD) is beyond challenging. These kids often have violent outbursts, steal, engage in outlandish lying, play with feces, and hoard food. They are broken children who too often break even the most loving of caregivers. Many parents of these children feel utterly isolated as family, friends, and professionals minimize their struggles. Reactive Attachment Disorder (RAD) - The Essential Guide for Parents is written by a parent who is in the trenches with you. Keri has lived the journey of raising a son with RAD and has navigated the mental health system for over a decade. This is the resource you've been waiting for – you won't find platitudes or false hopes. What you will find is essential information, practical suggestions, and resource recommendations to provide a way forward. If you desperately need help navigating the difficult RAD journey with your child, this book is for you.
