Cadon has been tasked with setting up a base in the human city. A safe-haven for the males to stay while they're trying to find mates. Everything needs to be ready for when the first five arrive. A friend asks a favor of him, bringing him in the path of a tiny human. She was recently beaten, she's afraid, and she's with child. Cadon can't take his eyes off her. Such a delicate thing. Every protective instinct inside him instantly comes alive when he finds out the baby's father has abandoned her. That he is the one who beat her. Furthermore, he's still out there and could come after her again. As much as he should stay out of it and stay away, he can't... Who is this huge, hulk of a man? Why is he insisting on helping her? Maybe because she needs help. No! Kerry can manage just fine without him. She doesn't need a man in her life. Look at where that got her before. Jobless, pregnant and all alone. No thanks! She'll have to find a way to get by, to do what it takes to safeguard her baby. No cheating and a guaranteed HEA. Contains hot alpha males and therefore strong sexual themes/language
