From New York Times best-selling author Meghan March comes a brand new saga of forbidden love and second chances. A Riscoff and a Gable can never live happily ever after. Our family feud is the stuff of legends. Ten years ago, Whitney Gable caught me off guard with her long legs and grab-you-by-the-balls blue eyes. I didn't know or care what her name was. Like any Riscoff worth the family name, I went after what I wanted. We burned like a flash fire until she married another man. She hates me, and she should. I objected on her wedding day. Now she's home, with those same long legs and man-eater stare, but there's no ring on her finger. They say a Riscoff and a Gable can never live happily ever after...but I'm not done with Whitney Gable. I'll never be done with her.
