

[Free PDF File] Facial Reconstruction for Artists

CONTINUE ►

A guide to producing realistic faces and expressions using techniques of facial reconstruction. Artists traditionally strive to produce beautiful and/or inspiring art. The goal of a forensic artist, however, is to produce a likeness of an individual that might lead to recognition. Using the skull as the foundation, the forensic artist uses various skeletal markers and identifiers to reconstruct the face. This book will provide you with information that will help you increase your skills, enhance your talents, and learn those details that will add additional realism to your figures.
