

[Free PDF File] From Deep Space with Love: A Conversation about Consciousness, the Universe, and Building a Better World

CONTINUE ►

How are we doing as a civilization? Are we missing anything? Why are societies so deeply divided? What happened to the many advanced cultures that preceded ours, evidenced by the impressive, mysterious ruins that litter the globe? Are there sentient beings visiting us from other planets, and if so, why haven't they made themselves known? Is there a God like the one we've been taught to believe in? And how far might spirituality take us, or does science hold the key to progress? We all ask questions like these not even expecting answers—but what if answers existed? What if we found them? Would we recognize the truth once uncovered? Enter Frank: a collective of eight beings from a distant planet who know what we're going through because they've been there too. Their civilization, once beset by many of the same challenges we face, has now advanced to a point where they can offer an informed and compassionate perspective on our trials, tribulations, and triumphs here on Earth. Speaking to Mike Dooley, one of today's most celebrated New Thought leaders, with medium Tracy Farquhar serving as their channel, Frank answers questions about: •Life on Brahoshka, from culture, technology, and education to leisure pursuits, food supply, relationships, and much more •Pressing earthly matters, from our current political and social realities to the real story behind the Loch Ness Monster •The power of imagination, meditation, concentrated thought, divination, and prayer •The truth concerning angels, other dimensions, and what we can do to make a better world Get ready for a fascinating and often surprising dialogue that will expand your awareness, challenge the status quo, and reveal the true limitless nature of the universe, humanity, and yourself.
