CONTINUE ►

These naughty girls aren't just going to get what they want. They're going to get what they need. Ladder 54 is a collection featuring five brand-new, spectacularly sexy firefighter romances from five superb authors. This blazing hot box set includes the following Kindle-melting books: The Dance Card by Maren Smith Rylee Mercer has never had the courage to stop watching the world around her and actually play with anyone at the local BDSM club, let alone handsome, commanding firefighter Walker Daniels. But when she wins a date with Walker at a kink-themed charity auction by less than honest means, he takes it upon himself to make her confess, teasing and tormenting her naked, quivering body until she admits her naughty behavior and begs for the punishment she deserves. Light Me Up by Raisa Greywood When Dr. Selene Alexiou travels to Big Banks, Montana for work, she hopes she can avoid Theo Papadakis, the schoolgirl crush who broke her heart. But when she hears about a charity date auction in which Theo--now a fireman--is participating, Selene decides to teach him a lesson. After placing the winning bid, however, her plan quickly goes awry. Infuriated by his scolding, she leaves town, but when he tracks her down will his skilled dominance prove irresistible? Rekindled by Adaline Raine Dakota Channing returned to the sleepy little town of Big Banks hoping to gather the courage to explain to her ex-husband why she ran away. What she ends up doing, however, is bidding on a date with him at a charity auction. When she wins, she soon finds herself over his knee for the spanking he should have given her years ago, and as she lies naked and bound with her well-punished bottom sore both inside and out, he leaves her in no doubt that she still belongs to him. Sparked by Deception by Isabella Laase When twenty-two-year-old Claire lets her twin sister Claudia talk her into pooling their money to bid on a date with firefighter Declan Kennedy at a kinky charity auction, the covert plan is for them to take turns over his well-muscled thighs. After Declan strips her, spansks her, and claims her hard and thoroughly, however, she cannot bear the thought of sharing him with anyone, especially Claudia. But will Claire's jealousy end up alerting Declan to their little scheme? A Hero for Lauren by Felicity Brandon More than ten years ago, Lauren Roberts was rescued by firefighter Blake Anderson, and she's fantasized about him ever since. She jumps at the opportunity to bid on him at a charity auction, but she ends up winning more than she bargained for, and soon she is over his knee having her bare bottom spanked for disobeying his instructions. There's no doubt his stern dominance arouses Lauren, but when Blake discovers she's in real trouble, can he still be her hero? Publisher's Note: The books of Ladder 54 include spankings and sexual scenes. If such material offends you, please don't buy this collection.
