Carrot Quinn fears that she's become addicted to the internet. The city makes her numb, and she's having trouble connecting with others. In a desperate move she breaks away from everything to walk 2,660 miles from Mexico to Canada on the Pacific Crest Trail. It will be her first long-distance hike. In the desert of Southern California Carrot faces many challenges, both physical and emotional: pain, injury, blisters, aching cold and searing heat, dehydration, exhaustion, loneliness. In the wilderness she happens upon and becomes close with an eclectic group of strangers- people she wouldn't have chanced to meet in the regular world but who are brought together, here on the trail, by their one common goal: make it to Canada before the snow flies.
