

PFYnd [GET] Her Prince's Secret Baby: A Forbidden Royal Romance

CONTINUE ►

There's really only one rule: don't f**k the nanny. I'm a wealthy, powerful heir to a throne. She's my strictly off limits employee. I want her saying "yes, your highness." What I get instead is "the baby's yours". "Love" left me broken and shattered once. But it also left me with my little girl, Livia. All I need is a nanny to watch her. But what I get with Cara is an obsession - an addiction to the last girl in the world I should have anything to do with. I'm her boss. A prince. Heir to a throne and a kingdom. But temptation is the sweetest sin, and Cara's gorgeous, soft curves and fiery sass are breaking the last of my willpower. But there's a secret she's not telling me - a scandal that could bring my kingdom to its knees. A secret that's growing between us... Can I risk it all for love? Will I give up my billions and my kingdom for a taste of the forbidden fruit? ...What about for the mother of my unborn child? I take it back, there are two rules. And the second rule is don't fall for the nanny. Whoops. Her Prince's Secret Baby is a full-length contemporary royal romance. Hot as sin and sweet as sugar, with a dominant alpha hero who'll stop at nothing to have and protect what's his. Safe, no cliffhanger, and a guaranteed happy ever after!
