Welcome to Madame Allegrias, where your Krave will satisfy your every desire. At 25-years-old, unmarried, and untouched, Eve Tesler is an outcast in the Everton colony's society. Loneliness plagues her daily life and fearing that she will never know true intimacy, she does something uncharacteristically reckless: she pays the steep price for an unforgettable night with one of the Krave, legendary alien lovers with unparalleled skills and non-human abilities in the bedroom. Only, she never expected him. When Khiva's home planet was destroyed during the Great War, his race scattered among the stars and survived any way they could, including selling their infamous services for credits. Now, residing and working at Madame Allegrias' elite brothel on a human colony, Khiva's only goal is to earn enough for passage off Everton. But when a beautiful, lonely human female visits him one night...everything changes. Suddenly, he craves her with an intensity that should frighten him while her lush curves drive him to madness. It was supposed to be only one night, but Eve finds she can't stay away from her mysterious and forbidden alien lover even if she has to pay for him.
