Doctor. Good girl. Perpetually single. After months of blind dates, bad dates and regrettable dates, I gave up. Took myself out of the dating scene. That's where the dating site A Matched Set came in. Six months to meet the man of my dreams. Sure! He'll be tall and sexy, rich and hung. Yeah, right. My luck was never that good. Former Military. Single Dad. Widower. After losing my wife, I thought love and marriage were out of the question. But my son decided he wanted a mom. And my meddling brother signed me up on a dating site. Six months to find a woman who's smart, beautiful, wild in the sack and unimpressed by my money. Yeah, right. That unicorn doesn't exist. Authors Promise: This is a hot, steamy Single Dad Romance with a happily ever after ending and no cliffhangers.
