A new translation of the influential teachings of the great Stoic philosopher **DESPITE BEING BORN** into slavery, Greco-Roman philosopher Epictetus became one of the most influential thinkers of his time. *Discourses and Selected Writings* is a transcribed collection of informal lectures given by the philosopher around AD 108. A gateway into the life and mind of a great intellectual, it is also an important example of the usage of Koine or 'common' Greek, an ancestor to Standard Modern Greek.
