Number-one New York Times best-selling author Stephen King's terrifying novella about a town engulfed in a dense, mysterious mist - as humanity makes its last stand against unholy destruction.... In the wake of a destructive Maine summer thunderstorm, an impenetrable mist descends from the direction of a local military facility and infiltrates the small town of Bridgton. David Drayton and his son, Billy, are dragged into a living nightmare as unnatural and violent forces concealed by the mist begin to emerge, wreaking havoc in their wake. Now trapped in the local supermarket with a ragtag group of survivors, David unexpectedly faces a growing threat from within, one that promises to challenge the boundaries of sanity itself. In this horrifying mist, hearing is seeing - and believing. And what you're about to hear, you'll never forget. Originally published in his acclaimed collection *Skeleton Crew*, this riveting, eerie novella proves why Stephen King is a master storyteller in short form.
