When Rowan's Arctic research team pulls a strange object out of the ice in Northern Canada, things start to go wrong, very, very wrong. Rescued by a covert, black ops team, she finds herself in the powerful arms of a man with scary gold eyes. A man who vows to do everything and anything to protect her. Dr. Rowan Schafer has learned its best to do things herself and not depend on anyone else. Her cold, academic parents taught her that lesson. She loves the challenge of running a research base, until the day her scientists discover the object in a retreating glacier. Under attack, Rowan finds herself fighting to survive until the mysterious Team 52 arrives. Former special forces Marine Lachlan Hunter's military career ended in blood and screams, until he was recruited to lead a special team. A team tasked with a top-secret mission to secure and safeguard pieces of powerful ancient technology. Married to his job, he's done too much and seen too much to risk inflicting his demons on a woman. But when his team arrives in the Arctic, he uncovers both an unexplained artifact, and a young girl from his past, now all grown up. A woman who ignites emotions inside him like never before. But as Team 52 heads back to their base in Nevada, other hostile forces are after the artifact. Rowan finds herself under attack, and as the bullets fly, Lachlan vows to protect her at all costs. But in the face of danger like they've never seen before, will it be enough to keep her alive.
