

[GET] Captive: A Dark Cyborg Romance

CONTINUE ►

I hid, but he found me. Now he is going to breed me. I was there the moment he awakened. I saw the pain and rage in his eyes as they experimented on him. Now he is free, and he has come to claim me, to use me, and to breed me. He has no concept of boundaries or limits. He will not be gentle. He will take me hard and savagely, over and over, and if I resist he will punish me as shamefully as he sees fit. He is going to make me beg for mercy... and then he is going to make me beg for more. Publisher's Note: Captive includes spankings and sexual scenes. If such material offends you, please don't buy this book.
