The third book of the Sandman collection is a series of four short comic book stories. In each of these otherwise unrelated stories, Morpheus serves only as a minor character. Here we meet the mother of Morpheus's son, find out what cats dream about, and discover the true origin behind Shakespeare's A Midsummer's Night Dream. The latter won a World Fantasy Award for best short story, the first time a comic book was given that honor. This volume includes issues 17-20 of the original series and features completely new coloring, approved by the author, of issues 17 and 18.
