Award-winning actress Drew Barrymore shares funny, insightful, and profound stories from her past and present told from the place of happiness she's achieved today. *Wildflower* is a portrait of Drew's life in stories as she looks back on the adventures, challenges, and incredible experiences of her earlier years. It includes tales of living on her own at 14 (and how laundry may have saved her life), getting stuck in a gas station overhang on a cross-country road trip, saying good-bye to her father in a way only he could have understood, and many more adventures and lessons that have led her to the successful, happy, and healthy place she is today. It is the first book Drew has written about her life since the age of 14.
