WHILE GARDENING BOOKS, APPS AND THE INTERNET ARE FULL OF GREAT ADVICE, THEY CAN'T REPLACE PERSONAL EXPERIENCE. Your garden is in your micro-climate, with your soil. Perennials in one part of the country aren't perennials in another. There are simply too many plants and too many variables for anyone to remember from year to year what worked where and what didn't and why. You need to remember WHAT WORKS FOR YOU--IN YOUR GARDEN. Every gardener faces repeat attacks of pests or disease and needs to remember which treatment worked and which did more harm than good. Every gardener has weeded out emerging perennials, forgetting what they planted where. Every gardener needs a memory! Please STOP here and consider your needs: If you want options in your methods of recording, this is the journal for you! If you want a simpler garden journal, please click on the author's name and check out the smaller version, entitled The Garden Diary, Journal & Log Book. It has the same charts and helpful recommendations, but only three basic forms to fill out. This book has twenty-eight forms by comparison. While you don't have to use all the forms, having them available will give you the knowledge needed to become the best gardener possible. See the description below: THE GARDEN JOURNAL, PLANNER & LOG BOOK is a book of garden forms with the flexibility needed to personalize your style of record keeping. With this one book you can track your purchases from store to harvest to propagation. What really makes the difference between a great and a mediocre garden is how well the gardener keeps track of all the information needed to enhance success and avoid repeated failures. GARDENING IS AN ART, BUT IT'S ALSO A SCIENCE. THE GARDEN JOURNAL, PLANNER & LOG BOOK is designed to make record-keeping simple and easy. Every form is designed to include all the pertinent information needed, while minimizing the amount of time required to record that information. Use as many or as few forms as you desire: Individual plant pages with over fifty possible check boxes for each plant, plus space for additional info, photos, drawings, seed packets or tags. Logs for annuals, biennials and perennials, with code, location and date planted. Logs for weather, formulas & recipes, pests and diseases, cultivation and propagation, bloom and harvest times, flowers, bulbs, fruit, vegetables, herbs, vines, shrubs, trees, wildlife sightings and hardscaping. Prune, trim and tidy logs with guidelines. Planning pages for up to four years. Draw out garden plots for twenty beds on graph paper with notes on the pages opposite. Purchase record logs. Supplier contact list. Keep a diary for all the things you simply must write out using sentences or drawings, because as much as gardening is a science, it is an art above all. YOUR GARDEN WILL LOOK LIKE ART, but you will know that THE GARDEN JOURNAL, PLANNER & LOG BOOK is the science behind your success.
