Who would have thought that I, Scarlet Jones, the first ever Storm witch of the world, would one day work for the ECU? I sure as hell didn't, but here we are. When Jane Dunham came to the monastery to look for her sister Elisa, she had a parting gift for us: a horde of demons who came into our home and killed without mercy. It put an end to our illusion of safety pretty quickly. On that same night, my father came to see me. I was ready to start running on all fours from him, but then he offered me a deal: If I agreed to work with the ECU and help them hunt and kill demons, they were going to give me what I wanted the most: they would set my people free. A no-brainer. I said yes. Before I knew it, I had an office, a team of five, a Captain I'd officially named "Asshole", and unlimited resources to hunt down demons, while the rest of the Storm witches were finally free to live as they deserved. The dream life, right? Could have been, but mistakes of the past always find a way to come back and bite you in the ass. Mine are about to cost me much more than I could have ever imagined. And this is just the beginning of my troubles...
