Shy'Teria Barkley yearned for a man to love her despite her one flaw, her job as a porn star. Being in that type of business hadn't always been easy for her. It had its ups and downs, but it was easy money, which made Shy'Teria content with it. When she meets the infamous DeSean Jackson, there's an undeniable connection between the two. There's only one problem. DeSean has no idea that Shy'Teria is a porn star, and she has no intention of telling him any time soon out of fear that he would run far away like everyone else she tried dating in the past. Will Shy'Teria finally be able to have true love and keep her job, or will her relationship end just as quickly as it started? Diamond Willis is a stripper who some would say has the best of both worlds. Bryce Jones is a man who every sane woman would want to spend the rest of her life with. However, Diamond can't seem to love him the way she loves another man, DeSean's little brother, Quanmaine Jackson. Quan is a ladies man who already has an on again/off again girlfriend. He's young and has a reckless demeanor that Diamond knows isn't good for her health. Not only that, he's like a little brother to Bryce. No matter how bad Diamond feels for cheating on Bryce with someone so close to him, she can't seem to walk away from either of them. Will she be able to let one go but keep the other, or will she end up losing both Bryce and Quan when it's all said and done? Being in love is a blessing and sometimes can be a curse. Everything that glitters isn't gold, and this group of friends will soon find that saying to be true.
