CONTINUE ►

Imagine what it would be like living in only 100 square feet of space. Many people are embracing the simple life by downsizing their homes and possessions for more mindful lifestyle. The Tiny Houses wall calendar features clever and creative homes that fit the dream of less-is-more. Whether it's a cozy houseboat in Washington State, tiny stacked lofts with a Dr. Seuss feel in Japan, or a 55 sq. ft. house perched on the back of a bicycle in China, these tiny houses make a big statement about sustainable living. With a wide and popular appeal, the Tiny House movement is an exciting trend popping up all over the world. Through innovative designs and human ingenuity, the term tiny houses has evolved to encompass an exciting array of small dwelling types: yurts, cabins, tree houses, and even converted buses and shipping containers, to name a few examples—all with the emphasis of lowering our carbon footprint and embracing a simpler, more planet-friendly way of life. **DISCLAIMER:** "We cannot guarantee the availability of this ebook on an external site."
