"Never make someone a priority in your life when you are only an option in their life." - Maya Angelou "Half the harm that is done in this world is due to people who want to feel important. They don't mean to do harm, but the harm [that they cause] does not interest them. Or they do not see it, or they justify it because they are absorbed in the endless struggle to think well of themselves." - T. S. Eliot "Stay away from lazy parasites, who perch on you just to satisfy their needs, they do not come to alleviate your burdens, hence, their mission is to distract, detract and extract, and make you live in abject poverty." - Michael Bassey Johnson Have you felt like you've been walking on eggshells in your relationship for a while? Has your relationship started off strong where you felt over the moon, and now you're wondering what happened along the way?
