What is the narcissism epidemic? When our partner is a narcissist, only those who've actually experienced the madness will ever understand what we're going through. When Love Is a Lie is a straight-up, tell-all book about narcissism in relationships that skips the clinical bullshit to focus solely on the personal experience. A narrative that holds nothing back, Zari Ballard's story will educate, enlighten, and empower you to evaluate (and fully understand) the mind-boggling dysfunction in your own relationship. Compare her story to your own and watch what happens. As it has for thousands of abuse victims worldwide, When Love Is a Lie is going to resonate with you in ways that no other book about narcissism ever has. Any relationship involving a person with a narcissistic personality disorder will inevitably take a dark turn. We stay in the relationship thinking we can fix this person or love him/her out of their bad behavior but the truth is that narcissists, sociopaths and psychopaths can never be fixed - not with love, therapy, or any magic pill. Life quickly becomes a roller coaster ride from hell without a harness and with Lucifer himself at the controls. If that sounds dramatic, then you've never loved a narcissist. If that sounds familiar, then this very special book may just change your life. When Love Is a Lie breaks down the signs of a narcissistic personality and exposes the narcissist's

way of thinking.
