Be prepared and become a master survivor and mental master! Audiobook one: When you're on your own, away from civilization, you must know what to do, or you will die. Understanding our physical bodies, what they need, and what nature provides lies at the basis of getting through a desert, jungle, or mountain climate or landscape. Audiobook two: The undead are all over the streets. Just in case an epidemic spreads across the globe and turns this dystopian fantasy into a reality, a guide has been constructed to help you prepare. Audiobook three: It's not a matter of if but of when a zombie outbreak hits the world. When it does, you will be happy you took the time to listen to this brief audiobook of information. Audiobook four: The brain is the most important factor that determines our success. How well we handle the emotions caused by physical changes, how calm we can stay when panic hits our mind, and how determined we are to persevere when times get tough - those are things we need to control before we focus on any mechanics. Audiobook five: If only we could control ourselves and direct our bodies to accomplish more; that's what this guide is all about. Audiobook six: It has become possible for a larger group of people to travel the entire world with a single backpack, some items, and a limited amount of money. Even with a low budget, "backpacking" is an affordable, doable way of living. And yes, you can also make money online while doing it. Audiobook seven: Many people have no clue what to do when they're camping. But camping can be fun and interesting in a variety of ways. Learn to make the most of your experience in nature and become a super camper! Audiobook eight: You've probably heard of the Illuminati, of the Denver Airport, or of Area 51, but there are a lot more conspiracy theories out there. Some simply remained theories, and others turned out to be real. In this audiobook, we will expand on some minor and major conspiracy theories that have been kept secret in dark places. Audiobook nine: The Scout motto is "Be prepared". Still, a large group of people doesn't think it's a big deal to have a storage, know something about emergency kits, or prepare just in case a big hurricane floods the city or forest fire hits your hometown. Audiobook 10: What if someone suddenly had an accident, was drowning, couldn't breathe, had a burning wound, or was bleeding to death? After you finish, you'll be fully equipped with the bare essentials, the things everyone should know if there is an emergency situation. Audiobook 11: The world is a dangerous place. Self-defense can be done with a clean conscience and should be learned by anyone who finds him or herself on the street, especially in the evenings.
