Beverly Hills, 1984 Dragon shifter Damien Van Buren has it all: a fantastic job as a record label executive, an adorable young daughter and a gorgeous home in Beverly Hills--along with Linda, a cheating ex-wife who would like nothing more than to take him to the cleaners. Now that he's divorced, Damien needs to find a full-time nanny to help him care for little Stephanie. But when he takes a chance on hiring an au pair from overseas, he's not prepared for the fire she'll spark in his lonely heart. Brianna Murphy dreams of moving away from Ireland to realize her fantasy of becoming a singer. Knowing she'll never be discovered if she stays in her quaint hometown, she decides to apply for an au pair position just outside the bustling music scene of LA. When she manages to land the job, she never expects to fall in love with the sweet little dragon she's in charge of--and she definitely doesn't expect to fall for her new boss. Will Damien and Brianna be able to keep their relationship strictly professional, or does fate have something else in store for these two dragons? Damien's Nanny is a 30,000 word standalone novella with steamy shifter scenes intended for readers 18+.
