Kidnapped by werewolves. I'm lost. I'm scared. But all I know is I'm a survivor. They all want me. Fighting to save me from the clutches of evil. Fighting to get their hands on me. To touch me all over.... Giving me the biggest thrills of my life.... I'm Tiana, and I'm trapped in a university that is secretly a mating center for the endangered werewolf species. Bad Wolves In College - Book II never thought I'd find a man who would satisfy me, but then again, I never thought I'd be abducted by werewolves, either. Everything went horribly wrong as soon as I opened that damn letter. Now I'm trapped in an university that is secretly a mating center for the endangered werewolf species. Lucky I have a white knight, though: Beltane, the gorgeous campus Alpha. He's sexy, smart, and cares. Everything you'd want in a man. There's also Karin. More of a red knight. The loner with his own brand of attraction. Bad boy charm, and a brooding outcast. I need to protect myself, to survive the next six years in this hell. And perhaps Beltane and Karin can help out in that... By claiming me for themselves. Abducted From Campus - Book III guess I'm just the average college girl, except I've been kidnapped by werewolves. Things at LGB are finally starting to click into place. I've got Beltane's protection, and I've started classes. Everything is looking up with friends, love and college. The only problem? Not everyone is keen on Beltane's method of government and there's a plot brewing to try and take his pack from him. If Beltane loses, so do I. On top of that, Aiza, my closest friend has disappeared. Now it's up to me, Beltane and Karin to find her. Can we put aside our feelings long enough to save her? Will we be able to save ourselves? Pack Or Love - Book IV I'm just an average girl, but with the aid of a skillet and my friends, I'm about to dismantle all of werewolf society. When Aiza was taken, my sheltered life at LBG came crashing down. Now I know there's no way we can stay here, but how are we supposed to overcome a group of super strong werewolves? There's no way I can do this without Beltane and Karin's help. I need to make them see that helping us escape and exposing the organization is the right thing to do. But with the werewolves on the brink of extinction, will they be willing to risk exposure? What happens when you ask someone to choose between pack and love?
