A Presidential dynasty. An Arab terrorist attack. Democracy under siege. Mario Puzo envisioned it all in his eerily prescient 1991 novel, *The Fourth K*. President Francis Xavier Kennedy is elected to office, in large part, thanks to the legacy of his forebears - good looks, privilege, and wealth - and is the very embodiment of youthful optimism. Too soon, however, he is beaten down by the political process, and disabused of his ideals, he becomes a leader totally unlike what he has been before. When his daughter becomes a pawn in a brutal terrorist plot, Kennedy, who has obsessively kept alive the memory of his uncles' assassinations, activates all his power to retaliate in a series of violent measures. As the explosive events unfold, the world and those closest to him look on with both awe and horror.
